WOODEN SAUNA WOODCUBE

WOODEN SAUNA WOODCUBE

The Woodcube sauna is like nature's TV – with a panoramic view, frameless doors, an efficient HUUM heating stove and compact beds that allow you to enjoy an open view of nature while relaxing in the heat of the sauna. If you decide to escape from the hustle and bustle of the day, the Woodcube can be a shelter or a relaxation area without even turning on the heat.

Northern European wood, both inside and outside, guarantees the exceptional quality and durability of the Woodcube sauna.

The ergonomically arranged beds, the HUUM wall-mounted stove and the flat roof keep the structure low, leaving enough space inside. Also there is a small porch with towel hooks for your comfort.

The Woodcube sauna seats up to four people, its compact size making it perfect for space-saving projects – from residential gardens to glamping sites.

This is not just a sauna, but a statement piece that offers both aesthetics and functionality in a compact form.
